**Swiss Skin Care • Color • Aromatherapy**  
**Natural Hormone Replacement • Nutrition & Weight Management**

In a small town in northern Switzerland named Arbon, our founder, Petter Mörck, led a team of bio-chemists, biologists and herbalists to create a completely new skin care line based on a simple, yet revolutionary concept. Arbonne became a reality when it was introduced to America in 1980.

Our only purpose is the health and care of your skin. We believe you should know exactly what you're putting on your body. Many products' ingredients may have effects on your skin, hair and general health that should be avoided.

We use only the purest, finest-quality ingredients, including natural herbal extracts which are cold-pressed for us from countries around the world. We blend precisely, with continually updated formulae, combining the best of nature and science to bring you products which are:

- |                        |  |
|------------------------|--|
| • pH correct           | • Proven pure, safe, and beneficial              |
| • Botanically-based    | • Packaged in recyclable containers              |
| • Hypoallergenic       | • Cruelty-free ( <b>never</b> tested on animals) |
| • Dermatologist Tested | • Risk free – 45-day money-back guarantee        |

Arbonne skin care products, contain:

- |                         |                                      |
|-------------------------|--------------------------------------|
| ◆ NO mineral oil        | ◆ NO animal products or by-products  |
| ◆ NO petroleum products | ◆ NO harmful levels of chemicals     |
| ◆ NO waxes              | ◆ NO harmful levels of preservatives |
| ◆ NO SD 40 alcohol      | ◆ NO Dyes                            |
| ◆ NO acetone            | ◆ NO chemical fragrances             |

Arbonne's dedication to integrity also extends to our philosophy of helping to protect the earth's precious natural resources. Since the beginning, we have been a very active proponent of recyclable packaging, and we have *never* tested our products on animals.

Arbonne's products are formulated to be compatible with each individual's skin type and lifestyle - regardless of age or gender. With Arbonne, you'll discover highly concentrated, biodegradable, premium products that work together to help you achieve the younger-looking, healthier, and more attractive skin you deserve.

That is why Arbonne exists. To supply a natural choice for careful, caring people like you. When it comes to caring for your skin, we refuse to compromise.
